

Form

```
classDiagram
    class Form
    class WebAnalyzer_UI_EditParticipantForm["WebAnalyzer.UI.EditParticipantForm"]
    WebAnalyzer_UI_EditParticipantForm --|> Form
```

A UML class diagram showing a class hierarchy. The base class is 'Form', represented in a box at the top. Below it is a subclass 'WebAnalyzer.UI.EditParticipantForm', also in a box. A vertical arrow points from the subclass box up to the base class box, indicating inheritance.

WebAnalyzer.UI.EditParticipantForm
